

AMENDMENTS TO THE CLAIMS

In the Claims:

The following listing of claims replaces all prior versions and listings of claims in the application.

Listing of Claims:

1. (Currently Amended) A flat panel display with an input device added thereto, in which a touch screen is mounted on a display, and control boards and driving circuit boards are connected to said touch screen and said display so as to serve to perform switching for operating said touch screen and to send data to a display system, comprising:

a display driving portion directly connected to said display and a touch screen driving portion constructed by respective separate PCBs (printed circuit boards);

an interface medium for electrically connecting ~~PCBs disposed on control boards of said respective driving portions~~ said board of said display driving portion and said board of said touch screen driving portion;

wiring on said touch screen configured such that ~~it~~ said wiring is drawn out from ~~said board for said touch screen driving portion~~ and comes into contact with said board for said display driving portion ~~to be electrically connected to said board for said touch screen driving portion~~; and

touch screen driving wiring provided on said ~~control~~ board for said display driving portion so that said boards for said display driving portion and said touch screen driving portion constructed by said separate PCBs are electrically connected to each other through said interface medium, and simultaneously, said wiring drawn out from said touch screen comes into contact with said ~~control~~ board of said display driving board.
